

# Vintage Grand

by Midipirates

With great love to detail we sampled an impressive Grand Piano that was built in New York in 1886.

With 7 characterful dynamic layers and a key off - layer we could make it as versatile and expressive as possible for Pop, Rock, Jazz, Classic or Film music - from a warm and woody piano fluently up to a nice and bright fortissimo. Yet practical to use on your Yamaha MONTAGE or MODX Synthesizer: The 458 MB of Samples make it still reasonably sized for your Flash-Memory equipped Synth and will give you plenty of fun on stage, in the studio or simply practicing.

We hope you enjoy our Midipirates Vintage Grand!
