

Vintage Grand

by Midipirates

UNTUNED

With great love to detail we sampled an impressive Grand Piano that was built in New York in 1886.

But we forgot to tune it beforehand. Ooops!

Well, it's not as bad as you might think. Actually you might look for a Piano Sound with character and imperfection that catches the ear? If you use our Vintage Grand UNTUNED in 60s, 70s, modern Popsongs or film music, this unique Piano Sound will do so.

With 133 MB of Samples, 5 Waveforms and 8 Voices it is still reasonably sized for your Flash-Memory equipped Synth and will give you plenty of fun on stage, in the studio or simply practicing.

We hope you enjoy our Midipirates Vintage Grand (UNTUNED)!
